FRANCISZEK STAROWIEYSKI POSTER EXHIBITION

FRANCISZEK STAROWIEYSKI was a Polish artist. From 1949 to 1955 he studied at Academy of Fine Arts in Kraków and Warsaw. He specialized in poster, drawing, painting, stage designing, and book illustration. He was a member of Alliance Graphique International. Throughout his career his style deviated from the socialist realism that was prevalent during the start of his career and the popular, brightly colored Cyrk posters, however he did create one Cyrk poster 'Homage to Picasso' in 1966. He was the first Polish artist to have a one man show at the Museum of Modern Art in New York in 1986.

MOC AK permanent exhibition

ul. Lipowa 4

ZABŁOCIE 20 74

The theme of the display of the MOC AK Collection will be artistic media. We will present their most important forms: photography, painting, sculpture, drawing and video. When it comes to contemporary art, media have no absolute boundaries; they can be broadened, combined and hybridised. So many possible permutations exist that individual artists can invent or come up with a medium that will help them reveal their talent and formulate their own artistic theme. In this exhibition, we also want to illustrate the artists' ideas on how to individualise media.
